2. Composition / General Information

2.1 Chemical Characteristics: **None**

2.2 Dangerous components: **None**

2.3 **OWatecta®** metal ceiling tiles are manufactured from cold rolled zinc coated steel strip or aluminium sheet and are factory powder coat painted.

2.4 **OWAconstruct®** suspension components are manufactured from galvanised strip steel. Exposed surfaces are capped with pre-coated strip steel or aluminium.

2.5 **OWAtecta®** metal tiles and **OWAconstruct®** suspension components are guaranteed against manufacturing defects for a period of 20 years from date of installation.

3. Hazard Identification: **None required**

4. Ecology and Health:

4.1 **OWAtecta®** ceiling tiles are factory painted 'pure white' colour RAL 9010. The paint consists of non organic binders derived from epoxy resins, colour pigments and small amounts of inorganic additives free from harmful substances.

5. Cleaning of **OWAtecta®** metal ceiling tiles and **OWAconstruct®** suspension components.

5.1 The white surface paint coat on **OWAtecta®** metal tiles and **OWAconstruct®** suspension grid components is a long lasting durable powder coat application. Cleaning intervals will be dictated by the environmental usage / conditions. Use mild luke warm soapy water or window cleaner. Do not use scouring powders or strong chemical detergents.
